

INFLUENCE ROOMS STUDIO

The Ultimate Backdrop for Creativity

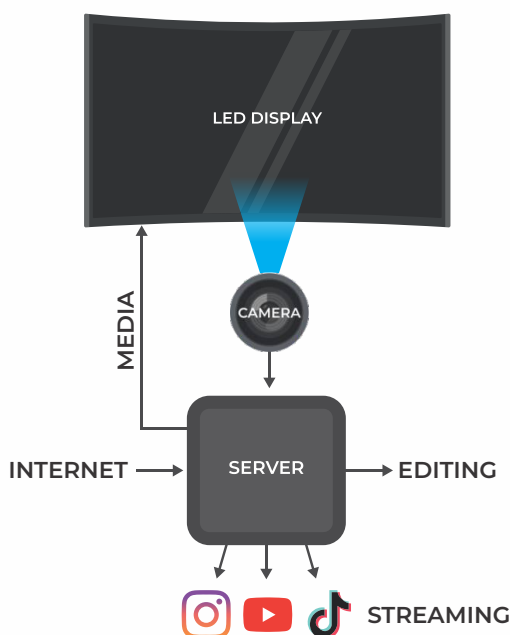

Our Influence Room solution integrates a high-resolution LED screen as a dynamic backdrop, transforming any studio or space into a versatile content creation hub.

Whether you're producing:

- Talk shows
- Podcasts
- Vlogs
- Sponsored product showcases
- Daily video recordings

... our solution adapts seamlessly to your needs.

Powered by a media server, the system enables smooth playback of background videos and supports cutting-edge AI-generated video content for unparalleled creativity. Additionally, it includes a robust server for recording and distributing finished video content across platforms such as YouTube, Instagram, Facebook, TikTok, or for secure media storage.
